VANK

VANK_RING is a universal and wide collection of furniture designed to arrange meeting places in offices, hotels, coworking facilities, retail spaces, and other public areas.

It includes comfortable bucket-type armchairs, lounge armchairs, sofas, poufs, and tables, which will make a great addition to minimalist, boho, vintage, wabi-sabi, and art deco settings alike.

The trademark of the series is its bold, theatrical lines, a modernist base resting on a circular form, and a selection of two heights of seat backrests with a distinct creasing of the fabric.

Design: Anna Vonhausen, PhD

VANK_RING is designed with the disassembly and further processing of selected components in mind. At the end of its useful life, the upholstery, filling and frame can be separated to facilitate sorting and further processing. The seats are filled with post-industrial polyurethane foam, allowing material remaining from the foam manufacturing process to be reused as filling in new products.

Bucket-type armchairs can be used as visitor or conference chairs. The lounge armchair option - offering a deeper seat - will be a perfect choice for shared spaces in offices, reception areas, foyers, and cafés. It comes with a low, traditional or a high, loft-like backrest, which offers privacy and acoustic protection to the user. The tall, oval sofas, resembling bar furniture, encourage meetings in a less formal atmosphere - so much in demand in the offices and public areas of today.

All models from the RING collection feature a unique spring-based seating system. The 'boutique' nature of the furniture can be additionally highlighted by the use of velour or bouclé - a thick weave, looped fleece fabric, soft and pleasant to the touch.

The VANK_RING series offers also tables: round coffee tables, an oval table in the form of a desk, and a tall-legged oval table for sofas with a tall frame. The table tops are made of highly-durable, SwissCDF board available in white, graphite, or Venetian walnut, and of plywood with a natural veneer in oak or walnut.

VANK_RING is a comfortable lounge chair designed in response to the need for relaxation, reflection or concentration. It features a unique resilient seating system and a round plate base. The comfortable rocking mechanism lets the user recline and rock freely. The high loft-styled backrest additionally provides privacy and acoustic protection.

The VANK_RING bucket-type armchairs based on a tall 4-leg cross base featuring a self-turn mechanism or on a 5-pointed cross-base with castors and a height adjustment feature will make any study turned into a home office more cosy and inviting. They are accompanied by the VANK_RING table, which acts as a light, casual desk. Such a complete workstation is a solution created also with hotel rooms in mind.

All models from the RING collection feature a unique spring-based seating system. The 'boutique' nature of the furniture can be additionally highlighted by the use of velour or bouclé - a thick weave, looped fleece fabric, soft and pleasant to the touch.

Both the seating furniture and the tables rest on powder coated steel frames. Apart from the standard office colours, the range of VANK finishing solutions includes also more elegant hues to warm up the interiors: gold-beige and brown.

Optional equipment

Mediaport 1x230V + 2xUSB A/C
– mounted in tables and desks.

Mediaport 2xUSB A/C – mounted in sofas, chairs, and poufs.

The RING cushion can be easily separated from the frame thanks to Velcro straps, and can be used as a meditation cushion during a break at work.

Funky Interior Objects

VANK is a team of architects, engineers and craftspeople. We create furniture. Objects. Statements in space. Intelligently designed products that combine form, function and advanced technologies. We believe in a circular economy. We use recycled materials, materials from renewable sources and plant-fibre-based materials.
