

VANK

SCREEN

Die Akustiktrennwände VANK_SCREEN sind wahlweise aus einem innovativen BIO-Material oder aus recyceltem rPET gefertigt. Sie lassen sich mit Stoffen in einer breiten Farbpalette beziehen und setzen dank ihrer vielfältigen, dreidimensionalen Formen nicht nur akustische, sondern auch visuelle Akzente im Raum.

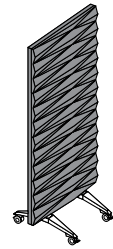

Design: Dr Anna Vonhausen (Paneele DIAMOND, WAVE), **Mili Młodzi Ludzie** (Paneele ELLIPSE i COLUMN)

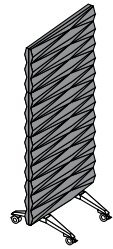

Die mobilen VANK_SCREEN-Wände mit Whiteboard-Oberfläche sind die perfekte Lösung für moderne Bürowelten, die Kreativität und flexible Arbeitsorganisation fördern. Leicht verschiebbar und vielseitig einsetzbar, schaffen sie im Handumdrehen temporäre Bereiche für Meetings, Brainstormings oder Workshops – genau dort, wo sie gerade gebraucht werden.

Funky Circular Interior Objects

VANK ist ein Team von Architekten, Ingenieuren und Handwerkern. Wir entwerfen Möbel. Objekte. Zeichnen im Raum. Intelligent gestaltete Objekte - mit Respekt für die natürliche Umwelt und unter Verwendung moderner Technologien. Wir glauben an ein Modell der Kreislaufwirtschaft, das den Verbrauch natürlicher Ressourcen einschränkt und die Verwendung von biobasierten oder recycelten Materialien fördert.
